You will be met with a sign-up page where you will create your account name. *Your account name will constitute your \$bts public key* as well, *please* bear in mind you are not limited to numbers, the name can more or less be anything. For this example I created:

"test-tbb-buyer"

Once you have set and confirmed a password you will click "*Create Account*", then you will be met with this screen where you can create a *.bin backup* of your account, *DO NOT LOSE THIS BACKUP, SHARES CANNOT BE REISSUED IN THE CASE YOU LOSE YOUR ACCOUNT.*

Once you click "Create Backup Now" you will be met with this screen.

Save this in a SAFE PLACE. For instance a USB Drive, or in a locked/encrypted folder.

After clicking on download it will download your backup and bring you into the dashboard. *Which will look like this:*
